

PARENT CENTER

AT DARCEY EARLY CHILDHOOD CENTER

A resource for families with children ages 3-5

provided by the Cheshire Public Schools

The Parent Center is a weekly playgroup for 3-5 year olds and their parents or caretakers. It is designed to give Cheshire families the opportunity to meet other families and/or discuss questions or concerns about their 3-5 year old child's development.

The Parent Center functions as a setting for families who have specific concerns about their child's development, or have been referred by physicians or other professionals. This initial screening may, if necessary, lead to a more formal individual evaluation to determine the possible need for specialized intervention.

It is a wonderful opportunity for you and your child to play together in a uniquely child-centered environment and meet other families with young children. Available staff may include early childhood, special education and kindergarten teachers, speech/language pathologist, occupational or physical therapists, a school psychologist and a registered nurse.

The Parent Center meets weekly during the school year at Darcey School.

Please join us
Fridays at 10:00AM
at Darcey School
1686 Waterbury Rd. Cheshire, CT 06410
